Noticing repetition

Noticing repetition in the book of Joshua

Repetition is a key thing to look out for in biblical texts. If God keeps saying it, it must be important.

In the book of Joshua we see the phrase ‘be strong and courageous’ popping up several times. Do a search for that phrase on Bible Gateway or in your Bible app (it should also bring up one instance of ‘be strong and very courageous’). Who is it said by, to whom, and what grounds (if any) are given for the courage?
